

Seeing the world at 35,000 ft.

On the water taxi going to see Dr. Poppas.

Haylie's first time at the beach in Connecticut exploring the world 2 days before surgery.

Getting settled with Haylie's "Baby" in the room at the hospital.

Teddy on the morning of the surgery.

Haylie back in her room after surgery...

Haylie and her favorite nurse, Ashley,
who Haylie called "Ash-ah-wee"

A tired, yet relieved family the day before going home

**Haylie with the Statue of Liberty
(or "Green Lady", as she called her).**

**Just as multitudes of people from
around the world have come to
New York for a hopeful start at
a new life, so too did our Haylie.**

**Like so many others,
Haylie was given a new beginning...**

**It is our continuous prayer that
her life remains blessed.**

**We will forever be enriched
by this chapter in our lives.**
